for a discussion on

The Poisoned Poor: Why Safe Management of Chemicals and Wastes Matters for Sustainable Development

24th March 2015
Side Event
at UN HQ New York
Conference Room 7
1:15pm – 2:45pm

Panellists will engage in an interactive discussion about the implications of chemicals and waste and pollution on sustainable development, including health, environment, poverty and economic growth, and how we can specifically measure progress against targets related to chemicals and waste.
